12:30-14:00

Lunch Symposium – 40 years of Clinical Experience with SERF
Dual Mobility Cups

INTRODUCTION

Pierre MOLLIER (FRANCE)

HISTORY AND CONCEPT OF THE DUAL MOBILITY

Frederic FARIZON (FRANCE)

DUAL MOBILITY CLINICAL INDICATIONS

Michel Henri FESSY (FRANCE)

DUAL MOBILITY MOTION PATTERNS

Bertrand BOYER (FRANCE)

**PREVENTION OF DISLOCATION IN THA IN THE ELDERLY,
NEUROMUSCULAR DISEASES AND ALZHEIMER'S PATIENTS**

Giannicola LUCIDI (ITALY)

**A THREE-YEAR EXPERIENCE OF THE USE OF THE DUAL MOBILITY
SYSTEM IN ITALY**

Danilo CHIAPALE (ITALY)

THE +35Y OF CLINICAL RESULTS

Thomas NERI (FRANCE)

Bramante 6-7
09:30-15:30

*Hands-on Course – Complex Cases and Innovative Solutions in
Total Hip Arthroplasty*

**SHORT STEMS: NECK PRESERVING APPROACH, CURVED STEM AND
SHORT CEMENTED STEM**

**ACETABULAR REVISION: BONE DEFECTS, RESTORING
BIOMECHANICS AND BEARING OPTIONS**

**FEMORAL REVISION: HOW TO SEPARATE FEMORAL FIXATION AND
BIOMECHANICS**

**DYSPLASTIC PATIENT AND SMALL FEMORAL REVISION: CANAL
MORPHOLOGY, FEMORAL VERSION, CCD ANGLE**

**CUSTOM MADE IMPLANTS: DEALING WITH COMPLEX CASES, HOW
TO DESIGN A CUSTOM MADE IMPLANT**

*Training on instrument sets and surgical technique will be offered by
trainers on saw bones.*

Sessions schedule: 09:30-10:30 / 11:00-12:00 / 12:30-13:30

5 stations equipped with 3 tables each of instrument sets, saw bones, power tools and big screens to offer attendees the possibility to gain hands-on experience using the instrument set and surgical techniques of the most challenging surgeries in total hip arthroplasty. Highly specialised Lima trainers will offer three training sessions to the attendees. Lima for the first time promotes an innovative way to train surgeons dealing with unconventional clinical situations.

Bramante 8-9
10:00-12:00

*Hands-On Course – Management of the Pelvic and
Acetabular Fracture*

The objective of this symposium is linking a group of pelvis trauma surgeons to discuss specific topics around the treatment of pelvic fractures. During the meeting there will be the possibility to discuss the clinical experiences and learning about the new technology. At the end of the session there will be also the possibility to test the Stryker Pelvis Pro system on the saw bone between a practical workshop.
